TABLE OF CONTENTS

to Volume 72, September–December, 1972

ALLARD, R. W., A. L. KAHLER and B. S. WEIR, The effect of selection on esterase allozymes in a barley population 489–503

BIRD, MARGARET A. and H. E. SCHAFFER, A study of the genetic basis of the sexual dimorphism for wing length in *Drosophila melanogaster* 475–487

BIRNBAUM, ALLAN, The random phenotype concept, with applications 739–758

BLAYLOCK, B. G. and H. H. SHUGART, JR., The effect of radiation-induced mutations on the fitness of Drosophila populations 469–474

CARRANO, A. V., A formula to predict the transmission frequency of acentric fragments 777–782

CEDERBAUM, STEPHEN D. and AKIRA YOSHIDA, Tetrazolium oxidase polymorphism in rainbow trout 363–367

CHILDRESS, DINAH, Changing population structure through the use of compound chromosomes 183–186

CLARK, ARNOLD M. and ADAIR B. GOULD, Evidence for post-cleavage fertilization among mosaics in *Habrobracon juglandis* 63–68

COLAIANNE, JAMES J. and A. E. BELL, The relative influence of sex of progeny on the lethal expression of the *sonless* gene in *Drosophila melanogaster* 293–296

COX, EDWARD C., GERALD E. DEGNEN and MARY L. SCHEPPE, Mutator gene studies in *Escherichia coli*: the *mutS* gene 551–567

DAWSON, PETER S., Sex and crossing over in linkage group IV of *Tribolium castaneum* 525–530

DEV, V. G., D. A. MILLER, S. HASHMI, D. WARBURTON, O. J. MILLER and J. KLEIN, The biarmed *Mus poschiavinus* chromosome carrying the *H-2* locus, *T1posKlj*, is *T7Bnr* 541–543

DORN, GORDON L., Computerized meiotic mapping in *Aspergillus nidulans* 595–605

EISEN, E. J., Long-term selection response for 12-day litter weight in mice 129–142

FINGER, IRVING, CAROL HELLER, LINDA DILWORTH and CAROLYN VON ALLMEN, Clonal variation in Paramecium. I. Persistent unstable clones 17–33

FINGER, IRVING, FRED ONORATO, CAROL HELLER and LINDA DILWORTH, Clonal variation in Paramecium. II. A comparison of stable and unstable clones of the same serotype 35–46

FINGER, IRVING, CAROL HELLER and STEPHEN MAGERS, Clonal variation in Paramecium. III. Heterogeneity within clones of identical serotype 47–62

GARCIA-BELLIDO, A. and P. SANTAMARIA, Developmental analysis of the wing disc in the mutant engrailed of *Drosophila melanogaster* 87–104

GERSH, EILEEN SUTTON, Studies on the *sal* locus in *Drosophila pseudoobscura*. I. The banding pattern of the tip of salivary chromosome 3 in larvae homozygous and heterozygous for *sal* 369–371

GERSH, EILEEN SUTTON, Studies on the *sal* locus in *Drosophila pseudoobscura*. II. Modes of regulation of the *sal* banding pattern 531–536

GILLIN, F., D. J. ROUFA, A. L. BEAUDET and C. T. CASKEY, 8-Azaguanine resistance in mammalian cells. I. Hypoxanthine-guanine phosphoribosyltransferase 239–252

GOLDBERG, ROBERT B., WILLIAM P. BEMIS and ALBERT SIEGEL, Nucleic acid hybridization studies within the genus Cucurbita 253–266

HEDRICK, PHILIP W., Maintenance of genetic variation with a frequency-dependent selection model as compared to the overdominant model 771–775

JENKINS, JOHN B., Spontaneous mutation rate in the dumpy region of Drosophila 373–375

KAKATI, SURABHI and ANIL K. SINHA, Banding patterns of Chinese hamster chromosomes 357–362

KLEESE, R. A. and R. L. PHILLIPS, Electrophoretic mutants as useful markers for chromosome aberrations 537–540

KOCH, ARTHUR L., Enzyme evolution: I. The importance of untranslatable intermediates 297–316

KOJIMA, K., P. SMOUSE, S. YANG, P. S. NAIR and D. BRNCIC, Isozyme frequency patterns in *Drosophila pavani* associated with geographical and seasonal variables 721–731

KOSUDA, KAZUHIKO, Synergistic effect of inbreeding on viability in *Drosophila virilis* .. 461–468

KRISCH, H. M., NANCY V. HAMLETT and HILLIARD BERGER, Polynucleotide ligase in bacteriophage T4D recombination 187–203

LANE, PRISCILLA W. and EDWIN D. MURPHY, Susceptibility to spontaneous pneumonitis in an inbred strain of beige and satin mice 451–460

LEVY, JERRE and THOMAS NAGYLAKI, A model for the genetics of handedness 117–128

LOTAN, DAFNA, EZRA YAGIL and MOSHE BRACHA, Bacterial conjugation: An analysis of mixed recombinant clones 381–391

MacDonald, T. and H. H. Smith, Variation associated with an *Aegilops umbellulata* chromosome segment incorporated in wheat. II. Peroxidase and leucine aminopeptidase isozymes 77–86
Mestriner, Moacyr Antonio and Eucleia Primo Betioli Contel, The *P-3* and *Est* loci in the honeybee *Apis mellifera* 733–738
Miklos, George L. G., Armon F. Yanders and W. J. Peacock, Multiple meiotic drive systems in the *Drosophila melanogaster* male 105–115
Mukai, Terumi, Henry E. Schaeffer and C. Clark Cockerham, Genetic consequences of truncation selection at the phenotypic level in *Drosophila melanogaster* 763–769
Mukai, Terumi, Sadao I. Chigusa, L. E. Mettler and James F. Crow, Mutation rate and dominance of genes affecting viability in *Drosophila melanogaster* 335–355
Nanney, D. L. and F. P. Doerder, Transitory heterosis in numbers of basal bodies in *Tetrahymena pyriformis* 227–338
Neel, James V. and Richard H. Ward, The genetic structures of a tribal population, the Yanomama Indians. VI. Analysis by *F*-statistics (including a comparison with the Makiritare and Xavante) 639–666
Olsen, M. W. and E. G. Buss, Segregation of two alleles for color of down in parthenogenetic and normal turkey embryos and poults 69–75
Partridge, C. W. H., Mary E. Case and Norman H. Giles, Direct induction in wild-type *Neurospora crassa* of mutants ($qa\text{-}1^C$) constitutive for the catabolism of quinate and shikimate 411–417
Pfahl, Magnus, Genetic map of the lactose repressor gene (*i*) of *Escherichia coli* 393–410
Prakash, Satya and R. B. Merritt, Direct evidence of genic differentiation between sex ratio and standard gene arrangements of *X* chromosome in *Drosophila pseudoobscura* 169–175
Prakash, Satya, Origin of reproductive isolation in the absence of apparent genic differentiation in a geographic isolate of *Drosophila pseudoobscura* 143–155
Pratt, Charles and Jonathan Gallant, A dominant constitutive *phoR* mutation in *Escherichia coli* 217–226
Rank, G. H. and N. T. Bech-Hansen, Somatic segregation, recombination, asymmetrical distribution and complementation tests of cytoplasmically-inherited antibiotic-resistance mitochondrial markers in *S. cerevisiae* 1–15
Roberts, Paul A., A possible case of position effect on DNA replication in *Drosophila melanogaster* 607–614
Shannon, M. P., T. C. Kaufman, M. W. Shen and B. H. Judd, Lethality patterns and morphology of selected lethal and semi-lethal mutations in the zeste-white region of *Drosophila melanogaster* 615–638
Siervogel, R. M., Dosage of the maternal effect gene associated with the tumorous-head abnormality in *Drosophila melanogaster* 377–380
Slatkin, Montgomery, On treating the chromosome as the unit of selection 157–168
Smouse, Peter E. and Ken-ichi Kojima, Maximum likelihood analysis of population differences in allelic frequencies 709–719
Sofer, William H. and Mark A. Hatkoff, Chemical selection of alcohol dehydrogenase negative mutants in Drosophila 545–549
Srb, Adrian M. and Mary Basl, Evidence for the differentiation of wild-type alleles in different species of Neurospora 759–762
Stauffer, Henry H., The effect of oxygen on the frequency of somatic recombination in *Drosophila melanogaster* 277–291
Strickberger, Monroe W., Viabilities of third chromosomes of *Drosophila pseudoobscura* differing in relative competitive fitness 679–689
Strobeck, Curtis, Heterozygosity in pin-thrum plants or with partial sex linkage 667–678
Templin, Ann, Sidney R. Kushner and Alvin J. Clark, Genetic analysis of mutations indirectly suppressing *recB* and *recC* mutations 205–215
Tracey, Martin L., Sex chromosome translocations in the evolution of reproductive isolation 317–333
Travaglini, E. C., J. Petrovic and J. Schultz, Characterization of the DNA in *Drosophila melanogaster* 419–430
Travaglini, E. C., J. Petrovic and J. Schultz, Satellite DNA's in the embryos of various species of the Genus Drosophila 431–439
Travaglini, E. C. and J. Schultz, Circular DNA molecules in the Genus Drosophila 441–450
Wasserman, Marvin, Factors influencing fitness in chromosomal strains in *Drosophila subobscura* 691–708
Weinmann, Roberto, Regulation of ribosomal RNA and 5s RNA synthesis in *Drosophila melanogaster*. I. Bobbed mutants 267–276
Weir, B. S., R. W. Allard and A. L. Kahler, Analysis of complex allozyme polymorphisms in a barley population 505–523
Werkheiser, Donna and David Pittman, Induction of petite mutants in *Saccharomyces cerevisiae* by ICR-170 and their genetic characterization 177–182
Wolf, Beverly, The characteristics and genetic map location of a temperature sensitive DNA mutant of *E. coli* K12 569–593
